Job Experinces:

February 2024 - May 2026

Xfinance Company - iX Broker (UK)

JOB TITLE: MOTION & GRAPHIC DESIGNER (REMOTE)

Responsibilities: I Designed high quality motion graphics and multimedia visual assets for social media campaigns across Facebook and Instagram pages. Led the web design process by creating clean, user-centric layouts and digital interfaces that enhanced overall user experience.
Produced SEO-focused visual and content assets for the company website to increase organic traffic and user engagement.
Transformed complex marketing ideas into compelling visual stories while keeping branding consistent across all channels.

February 2023 - February 2024

Yerino TV (Turkey)

JOB TITLE: GRAPHIC DESIGNER & VIDEO EDITOR

Responsibilities: I Edited and produced video content for television and digital platforms, maintaining high production standards throughout.
Created promotional materials, channel branding elements, and multimedia graphics for various media formats.
Worked closely with the content production team to brainstorm, script, and visualize new video segments.
Refined raw footage through precise cutting, color adjustment, and audio enhancement to deliver polished final videos.

May 2023 - February 2023

Zaren Group (Turkey)

JOB TITLE: MOTION DESIGNER & VIDEO EDITOR

Responsibilities: I Developed custom 2D and 3D motion graphics to elevate marketing campaigns and brand messaging.
Turned storyboards and creative briefs into high-impact animated videos and commercial edits.
Handled post-production work including sound design, color grading, and visual effects for client deliverables.
Collaborated with art directors and marketing teams to ensure all video assets met exact project specs.

February 2016 - Now

Kaghaz Sefid Digital Printing(Iran)

JOB TITLE: CO-FOUNDER

Responsibilities: I Co-founded and managed daily operations of a digital printing and advertising firm, driving consistent business growth.
Built strong relationships with corporate clients, handled sales negotiations, and expanded local market presence.
Oversaw the entire print production workflow, from prepress design checks to final quality control.
Introduced new digital printing services and updated production workflows to improve turnaround times and client satisfaction.

March 2015 - February 2016

Amadex Online Courier Services(Iran)

JOB TITLE: IT & WEBSITE MANAGER

Responsibilities: Managed and maintained the company website, ensuring high uptime, fast loading speeds, and smooth user flow.
Oversaw internal IT systems and digital tools that supported daily courier and delivery operations.
Executed technical SEO updates and site optimizations to improve search engine rankings and lead generation.
Troubleshot technical glitches quickly and streamlined the online order booking process for customers.

August 2014 - February 2016

Yas PC (Iran)

JOB TITLE: OPERATOR AND PC ENGINEER

Responsibilities: Diagnosed hardware failures, repaired components, and performed performance upgrades on client computer systems.
Installed operating systems, essential software, drivers, and local network setups for individual and business clients.
Tested individual hardware parts to ensure system stability, speed, and long term reliability.
Provided technical advice and hardware recommendations to help clients choose the right specs for their needs..

March 2013 - August 2014

Afra System (Iran)

JOB TITLE: OPERATOR AND PC ENGINEER

Responsibilities: Assembled custom PC configurations, set up new workstations, and maintained IT hardware for office environments.
Managed data backup routines, system recoveries, and preventive maintenance on client hardware.
Responded to technical support requests and resolved hardware and operating system issues promptly.
Maintained hardware inventory records and verified part compatibility before assembling custom PC builds.
